

Stagwood

Where timber meets architecture

QLD Blondes (Tallowwood)

Queensland Blondes bring together the best of Australian hardwoods. Tallowwood is one such hardwood. Its dense attractive grain and lighter colour palette is a favourite of architects, designers and owners alike. Stagwood is produced to suit residential, commercial and government building applications.

Grade: Organic. Stagwood Organic celebrates the qualities by offering a complete balanced natural selection of the tree including very straight to wavy dense grains and features.

Tone: Pale to dark yellow-brown

Texture: Moderately course, interlocking grain

Botanical names: Tallowwood-Microcorys and Acmenoides

Durability: Class 1 High (above ground) 40+ years

Strength Group: High (SD2 Seasoned) to Reasonably High (SD2 Seasoned)

Hardness: Hard (Janka 8.6)

Density: 990 kg/m³

BAL Rating AS3959-2009: BAL 12.5-19

Termites: Resistant

Before fixing Stagwood claddings, all wall openings, vertical and horizontal joints, sills, heads and corners must be weatherproofed with flashing to comply with National Construction Codes.

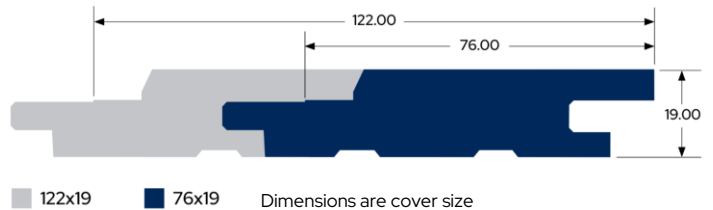

Stagwood (Howard Sawmill) proudly complies with the requirements of AS 4707 - Chain of Custody for Forest Based Products. All information is correct at time of printing but may be subject to change. Please check with your account representative or email info@citytimber.com.au
