

# Stagwood

Where timber meets architecture

## QLD Blondes (White Mahogany)

Queensland Blondes bring together the best of Australian hardwoods. White Mahogany is one of the premium Australian hardwoods. Its medium attractive grain and lighter colour palette is a favourite of architects, designers and owners alike. Stagwood is produced to suit residential, commercial and government building applications.

**Grade:** Organic. Stagwood Organic celebrates the qualities by offering a complete balanced natural selection of the tree including very straight to wavy medium to dense grains and features.

**Tone:** White, yellow, pale yellow to light brown

**Texture:** Mostly uniform and medium textured wood

**Botanical names:** Eucalyptus Acmenoides

**Durability:** Class 1 High (above ground) 40 - 60 years

**Strength Group:** High (SD2 Seasoned) to Reasonably High (SD2 Seasoned)

**Hardness:** Hard (Janka 10.0)

**Density:** 950 kg/m<sup>3</sup>

**BAL Rating AS3959-2009:** BAL 12.5-19

**Termites:** Resistant

Before fixing Stagwood claddings, all wall openings, vertical and horizontal joints, sills, heads and corners must be weatherproofed with flashing to comply with National Construction Codes.

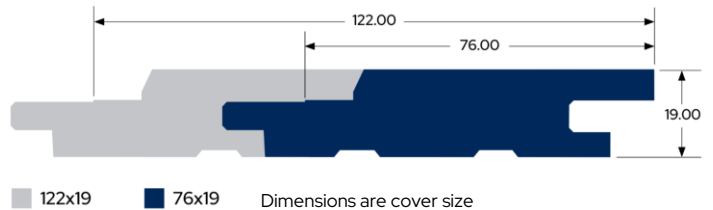

Stagwood (Howard Sawmill) proudly complies with the requirements of AS 4707 - Chain of Custody for Forest Based Products. All information is correct at time of printing but may be subject to change.
